THE COTTAGE CRAFTS DELIVERS TIMELESS AND ELEGANT ROOMS THAT ARE CASUAL AND INVITING

CLASSIC CHIC

trends come and go, but classics are evergreen. And classic indeed are the elegant spaces created by the design division of The Cottage Crafts. The interior consultancy has blazed a trail designing homes with a difference since 2000 – from dramatic Baroque and laidback Shabby Chic to semi-formal French Provincial and grand Georgian styles.

As a one-stop design and renovation firm, The Cottage Crafts creates stylish homes that fulfil the functional and aesthetic needs and wants of homeowners. Backed by an extensive range of furniture, accessories, lighting and fabrics from its retail arm, The Cottage Crafts delivers a holistic look that encompasses the living room, dining room, bedroom and even bathroom. Customers can choose from almost 15,000 reproduction antique table lamps, clocks, knick-knacks, mirrors and picture frames sourced from France and England – there's definitely something to satisfy every quirk and taste.
